EAN	4016842116485
Material	plastic
Special features	tank capacity 350 ml
Type	pure white
Weight	0.204 kg

The mobile sensor sanitizer dispenser for flexible use. Thanks to its compact dimensions and light weight, the dispenser can be taken anywhere and flexibly placed wherever you need it. The free-standing dispenser can be used without additional mounting material. Thanks to a precise infrared sensor, you can disinfect your hands touchless and keep them germ-free. Power is supplied by 4 AA batteries (not included) and is switched on or off by a push button. The transparent tank with a capacity of 350 ml always shows the current fill level. For refilling, the tank is simply and quickly unscrewed. Please note that the sensor dispenser is not a medically certified product. Disinfectant is not included in the scope of delivery.
