

5-Way Plus Penetrant Pump

Product Data Sheet

Updated : March 1996
Supersedes : January 1995

Product Description

3M 5-Way Plus Penetrant is a new non aerosol pump spray which contains no aerosol propellants or ozone depleting chemicals. The system delivery 100% active ingredients where you want them at the press of a finger.

The small handy size dispenser is convenient and easy to use.

3M 5-Way Plus Penetrant is a silicone-free light duty lubricant that penetrates tight fitting areas, demoisurises, inhibits rust and cleans metal parts.

3M 5-Way Plus Penetrant is an excellent lubricant for machines and precision instruments. It is ideal for use as a tapping lubricant for stainless steel and aluminium.

Effectively displaces moisture and dries out electrical apparatus, ignition systems, generators, motors, etc. And helps free rusted, frozen nuts and bolts. Helps relieve binding of sliding parts. Stops annoying squeaks. Inhibits pitting of injection moulding dyes, extrusion dyes and screws during storage.

Physical Properties

Not for specification purposes

% Volatile	0	
Density (g/ml)	0.86	
Odour	Petroleum	
Flash Point	>210 °C	
Shelf Life	12 months from date of despatch by 3M when stored in the original carton at 21°C (70°F) & 50 % Relative Humidity	

Date : March 1996
5-Way Plus Penetrant Pump

Application Techniques	<p>Hold container upright and pump to dispense product. Fast pump action dispenses product as a spray, whilst a slower pump action gives a jet like spray.</p> <p>For hard to reach areas, use the extension tube which fits into the sprayhead.</p>	<p>Thoroughly wet all grease, grime etc. On the surface or parts being cleaned with 3M 5-Way Plus Penetrant. Wait for a few minutes for complete penetration and loosening action. Wipe thoroughly with a clean cloth.</p>
