

Health and Safety Data Sheet

Advance Tapes Product: AT832

Issue No. 1

Printed:06/03/06

Section 1

Identification

Product name: Double sided adhesive tape

Contact name and address: Advance Tapes International Ltd
PO Box 122, Abbey Meadows,
Leicester, LE4 5RA
England

CAS/EINECS No: N/A

Physical form: Double sided adhesive tape on a roll

Section 2

Composition

Green polyethylene film coated on one side with a synthetic rubber based pressure sensitive adhesive on the closed side and on the other side with an adhesive containing acrylate polymers. The tape is interleaved with a siliconised paper release liner. Not classifiable under CHIP Regulations or EC Directives 91/325 or 67/548.

Section 3

Hazard identification

General: Ingredients which may themselves present a toxic hazard do not normally constitute a hazard when incorporated into the product. Tape is not a hazard in normal circumstances.

Mouth: No specific precautions required in normal use.

Eye: Avoid eye contact, which may result in mechanical abrasion damage.

Skin: May cause irritation to persons with sensitive skins.

Section 4

First Aid measures

In cases of accidental ingestion, eye contact or persistent skin irritation, seek medical advice.

Section 5

Fire Fighting measures

Extinguishing media: Cool with water spray, use any suitable extinguishing media, e.g. CO₂ extinguisher.

Special precautions: Polythene adhesive tapes will burn in a general fire to produce fumes. Breathing apparatus may be required.

Section 6

Accidental release measures

Sweep up and place in suitable containers for disposal.

Section 7

Handling and storage

Store the tape at recommended temperatures and protect from dust, moisture, direct sunlight, corrosive and solvent fumes. Keep away from sources of ignition. Storage life is one year from date of despatch from manufacturer for technical properties. Wide widths (greater than 300mm) or adverse storage conditions may reduce shelf life. Discarded release liners should be kept tidy so as to minimise the risk of slips/trips and falls.

Health and Safety Data Sheet

Advance Tapes Product: AT832

Issue No. 1

Printed:06/03/06

Section 8 Exposure controls and personal protection

A good standard of personal hygiene should be maintained. Wash hands after use and especially before handling food. The tape has not been formulated and tested for prolonged skin contact and should not be used as a medical plaster or as a hand protection tape. People with sensitive skin or those concerned about skin abrasion should take suitable precautions e.g. proprietary barrier cream or gloves.

Section 9 Physical and chemical properties

Not relevant

Section 10 Stability and reactivity

Chemical stability: Stable

Conditions to avoid: Direct heat, sources of ignition or sunlight

Chemicals to avoid: Aromatic hydrocarbon solvents

Hazardous decomposition products: Toxic fumes such as carbon monoxide may be produced when burnt.

Section 11 Toxicological information

The product is not classifiable on the basis of physico-chemical or health effects.

Section 12 Ecological information

The product is not classifiable as harmful to the environment. Biodegradation is expected to be poor, due to the product's low water solubility.

Section 13 Disposal consideration

Dispose of as combustible non-toxic landfill to local regulations. Can be incinerated in a properly controlled incineration system.

Section 14 Transport information

Non hazardous. Not classified under IMDG or ADR regulations

Section 15 Regulatory information

EC Classification: Not classifiable within the meaning of Directives 91/325/EC, 67/548/EC and CHIP regulations

EC symbol: Not required

EC Risk Phrases: None

EC Safety Phrases: None

Section 16 Other information

This information is based on our current level of knowledge and relates to the product in the state in which it is delivered. It is intended to describe our products from the point of view of safety requirements and is not intended to guarantee any particular property. Refer to the current issue of the Technical Data Sheet for recommendations as to tape use.

This data sheet is in a format, which conforms to EC Directive 91/155.
