

MagicQ MQ500M & MQ500M Wing

Specifications

- Universes: 256
- Channels: 131,072
- Number of Fixtures: upto 131,072
- Cues: 5000
- Cue Stacks: 2000
- Palettes: 4096
- Groups: 5000
- Displays: 2 * 15" Multi Touch
- Motorised Playbacks: 15
- Encoder Playbacks: 15
- Multi-Function Executes: 12
- Backlit Keys
- Illuminated Faders & Encoders
- Visualisation universes 256
- Attribute Encoders: 8
- Direct DMX Ports: 4
- Network ports: 4
- External Monitor: upto 1920x1080 DVI-D
- USB ports: 5
- Audio Input and Output
- MIDI Notes In/Out, Timecoder and MSC
- LTC in/out
- Remote input port Yes
- Console lamp
- Inbuilt UPS
- Size (WDH cm) 860x587x85
- Weight (Kg) 32

Features

MagicQ MQ500M Stadium operates at the highest level of show control and supports 256 universes direct from the console without the need for external processing. MQ500M introduces motorised faders and encoder playbacks, now with 15 fully motorised fader playbacks, 15 encoder playbacks and 12 multi-purpose Macro/Execute/Playbacks/Palette keys, giving the console a total of 42 playbacks and providing programmers with a new upgraded work station.

MQ500M also features backlit keys and illuminated faders and encoders along with dual HD resolution multi-touch 15" displays with adjustable viewing angles and multi-touch gesture support, for a more intuitive workflow. For additional control, connect a MagicQ Stadium WingM and get even more playbacks and another touchscreen display as well.

MQ500M Stadium has inbuilt MagicVis 3D visualiser with high quality beam and gobo rendering. This means you can pre-program shows offline and save time onsite. The MQ500M has 4 built-in DMX ports and inbuilt 4 port ethernet switch. This versatile console also includes an intensity wheel and 100-mm split crossfaders for theatre control.

MagicQ MQ500M Wing
