DJ 300 PRO X

DJ 300 PRO X CLUB

Professional 2-in-1 DJ Headphones

APPLICATIONS

The DJ 300 PRO X and DJ 300 PRO X CLUB are closed-back headphones, ideal for accurate cueing and monitoring. Both provide a clear, powerful sound with focused mids, defined highs and rich bass.

Both models are designed for loud environments such as clubs and festivals and are equally suitable for stylish DJ sets at pop-up events, rooftops, art events or in bars.

Due to interchangeable ear pads, they can be used flexibly as on-ear or over-ear headphones. Sweat-resistant leatherette pads offer comfort, isolation and durability.

The cover caps can be personalised directly via the "MANUFAKTUR" online configurator on the beyerdynamic website.

The cable can be connected to the left or right ear cup and sits securely due to a lockable bayonet lock. The gold-plated mini jack plug (3.5 mm) with a screw-on 1/4" adapter (6.35 mm) is compatible with all standard headphone outputs.

Compact when folded and quick to store — ideal for spontaneous party nights and flexible use.

Replaceable parts ensure sustainable and long-lasting use.

SUPPLIED ACCESSORIES

- 1 pair of on-ear and 1 pair of over-ear pads
- 1.5 m (4.9 ft) special cable (coiled and straight)
- 1 x 6.35 mm (1/4") jack adapter
- Drawstring bag
- Quick start guide
