599 Nocturnal Blue

Introducing 599 Nocturnal Blue, a single-gel solution for realistic day-for-night film and photo shoots. Our innovative window gel was created to simulate a realistic nighttime look in broad daylight by reducing brightness by 8 stops and adding a cool blue tint.

By eliminating the need to layer multiple filters, 599 Nocturnal Blue saves time and material costs on set while also reducing waste.

Adds Depth to Your Shot:

- You can now shoot inside for a day-for-night look while still seeing outside, including movement.
- Streamlined Efficiency: Saves time, reduces waste, and lowers production costs.
- Single-Filter Solution: Replaces complex, layered setups, simplifying your lighting kit.

Transmission Y	0.36
x	0.213
y	0.22
Absorption	2.45

Colour Temperature 6774K

Rolls
Wide roll (20'x60") 1" core 7.62m x 1.22m (25' x 48")
2" core 7.62m x 1.22m (25' x 48")
Sheets
Full sheet 1.22m x 0.53m (48" x 21")
Half sheet 0.61m x 0.53m (24" x 21")
